## ENSURING A HEALTHY WORK BOTH INSIDE & OUTSIDE

A healthy workforce improves the organization. When they are happy and healthy on the inside, they are more likely to work to their full potential. That's what pre-employment health screenings are for.

A significant step to acquaint employers with their fresh additions, pre-employment health checkup is an essential assessment measure to know the comprehensive health scenario of an individual, which might require the intervention of the employer.

**Note:**

*\*The time between wellness checks depends on factors such as one's age, gender, risk factors for health problems, etc... although annual interval is generally advised, it is important to discuss with your doctor about the frequency of wellness check laboratory tests to best fit your individual health needs*
